

COMPLETE COACH WORKS

CELEBRATING 25 YEARS OF SERVICE

# Diesel Particulate Filter CLEANING

- Our Diesel Particulate Filter (DPF) cleaning systems are designed to clean DPFs with a diameter range from 11" to 15" and a length of 13" to 20"
- Designed for Active and Passive DPF Emission Filters
- We **service all brands** of particulate filters
- Data Logging and Opacity Testing
- Serving all of Southern California

After careful assessment of your filter's condition we customize a cleaning process designed to maximize the life and efficiency of your filter.

Our state-of-the-art cleaning systems assures you of peak vehicle performance, optimum fuel economy, and a healthier bottom line.

## Complete DPF Installations

- We develop a Custom Solution utilizing the best matched equipment for your fleet
- Installation by skilled seasoned Technicians
- Service and warranty by a trusted name with 25 years of proven dedication
